

Sustainability Opportunity

Our Client needs assistance with improving its Sustainability Program. They are looking for a student or recent graduate to assist in the review of Raw Material Technical Bulletins and Safety Data Sheets (SDS's) for integration into the client's database.

This person, under the guidance of the business unit:

- will acquire and review SDS's for proper format and completeness.
- make basic calculations on recipes for entry to the SAP computer system.
- review and classify regulatory and safety information for proper coding into the SAP system.
- scan and place SDS's into the company format for search by company's SDS programs.

The successful person for this position will have a background or understanding in polymer chemistry, materials or engineering; functional proficiency with Excel and databases; and is a self-starter that can work under minimal supervision.

This position may be ideal for a person taking evening courses or as a bridge to a full-time position or graduate school.

The position will be located at the client's research facility on the west side of the Cleveland area. This is a temporary position up to 40 hours per week for approximately 3-4 months.

If you have interest, please send an e-mail and one-page summary of qualifications to:
